

## Who should attend:

Classification Managers

## Duration:

1 day

## Methodology:

Instructor-led presentation, exercise, and discussion

## Prerequisite:

Gateway to the 3DEXPERIENCE Platform

## Introduction:

This course will teach you how to use the ENOVIA IP Classification app to create document libraries, part libraries and general libraries and use these libraries for organizing the parts and documents. You will learn how to store, manage and access documents and other files within the application in a collaborative work environment.

## Objectives:

Upon completion of this course you will be able to:

- Create different types of libraries and their related hierarchies
- Create and manage documents and parts
- Classify the library objects based on their features
- Use the Classification functionality

## Course Outline:

- Getting Started with ENOVIA IP Classification
- Creating a Document Library Hierarchy
- Creating a Part Library Hierarchy
- Creating a General Library Hierarchy
- Working with Document Objects
- Managing Attribute Groups
- Classifying Library Objects
